The Trac User and Administration Guide

The TracGuide is meant to serve as a starting point for all documentation regarding Trac usage and development. The guide is a free document, a collaborative effort, and a part of the Trac Project itself.

Table of Contents

Currently available documentation:

- TracGuide (This page) -- Documentation starting point.
  - TracInstall -- How to install and run Trac.
  - TracUpgrade -- How to upgrade existing installations.
  - TracAdmin -- Administrating a Trac project.
  - TracImport -- Importing tickets from other bug databases.
  - TracIni -- Trac configuration file reference.
  - TracPermissions -- Access control and permissions.
  - TracInterfaceCustomization -- Customizing the Trac interface.
  - TracPlugins -- Installing and managing Trac extensions.
  - TracWiki -- How to use the built-in Wiki.
  - TracBrowser -- Browsing source code with Trac.
  - TracChangeset -- Viewing changes to source code.
  - TracTickets -- Using the issue tracker.
  - TracReports -- Writing and using reports.
  - TracQuery -- Executing custom ticket queries.
  - TracRoadmap -- The roadmap helps tracking project progress.
  - TracTimeline -- The timeline provides a historic perspective on a project.
  - TracLogging -- The Trac logging facility.
  - TracRss -- RSS content syndication in Trac.
  - TracNotification -- Email notification.

- Trac FAQ - A collection of Frequently Asked Questions (on the project website)

Support and Other Sources of Information

If you are looking for a good place to ask a question about Trac, look no further than the MailingList. It provides a friendly environment to discuss openly among Trac users and developers.

See also the TracSupport page for more information resources.
